## EXPERIENCE

### Freelance Software Developer

#### SudoBot

📅 March 2023 – Present    📍 Remote

- Developed and deployed 20+ Telegram bots for task automation, improving client efficiency by 30% on average.
- Designed scalable solutions adhering to best practices, reducing deployment time by 25%.
- Delivered customized software solutions for 15+ clients, achieving a 95% client satisfaction rate.

## PROJECTS

### KW Telegram Bot

#### Personal Project

📅 2023    📍 Kwangwoon University

- Developed a Telegram bot that tracks assignment deadlines and sends notifications when less than 24 hours remain, reducing missed tasks by 30% in pilot tests.
- Secured user registration with 256-bit encryption, ensuring robust data privacy.
- Optimized command processing to achieve an average response time under 200ms.

**Tech Stack:** Python, Cryptography, SQLite, Redis

### KLAS-F (Foreign Student Academic Helper)

#### Team Project

📅 2024    📍 Kwangwoon University

- Built a full-stack web app to track graduation requirements (credits, courses) in English, reducing academic planning time by 40
- Led a 4-member team to design a user-friendly interface (Figma) and implement features with React + TypeScript, achieving 90% usability satisfaction.
- Optimized performance with Redis caching (reduced load time by 30%) and Dockerized deployment for seamless scaling.

**Tech Stack:** React, TypeScript, Tailwind, Spring Boot, MySQL, Redis, Docker, Git, Figma

### AI Psychologist

#### Personal Project

📅 2023    📍 Kwangwoon University

- Developed an AI-powered self-help app that analyzes diary entries using NLP, validated on 50 test cases.
- Designed a system to extract user emotions with 85% accuracy, delivering tailored psychological insights.
- Optimized AI response quality with prompt engineering and sentiment analysis, reducing latency by 25%.

**Tech Stack:** Java, Android Studio, PostgreSQL, Python, Flask, Docker, GitHub Actions, LangChain

## MOST PROUD OF

#### Problem-Solving

Solved 1,017 Codewars challenges, 200+ SQL tasks, and 40+ LeetCode problems.

#### Academic Excellence

GPA 4.15 at Kwangwoon University with A+ grades in key courses, ranking in the top 5% of the class.

#### Real-World Experience

Developed and maintained 3+ apps with real users.

#### Team Leadership

Led 4+ academic projects to consistent A+ grades, guiding teams of 3-5 members with agile methodologies.

#### Mentorship

Conducted 30+ mentorship sessions.

## STRENGTHS

Adaptable and Collaborative

Analytical Thinking

Problem Solver

Resilience

Python

JavaScript

React

Git

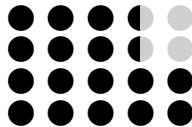

## LANGUAGES

Korean

English

Russian

Ukrainian

## EDUCATION

B.S. in Industrial and Civil Engineering

Crimea Federal University

📅 2015 – 2019

📍 Crimea, Ukraine

B.S. in Computer Science

Kwangwoon University

📅 2022 – 2026

📍 Seoul, South Korea

• **Relevant Coursework:** Databases, Data Structures, Operating Systems (Linux), Algorithms.
